

Biomedical Cluster Guest Speaker Seminar Series

“Conceptual Understanding in Neurological Surgery”

Sunday, August 2

2:00 - 3:00 PM PST

About the Speaker

Dr. Edie Zusman completed her undergraduate and medical school from Northwestern University; she then completed her residency training in neurological surgery from UC Davis and then did a fellowship at UCSF for epilepsy surgery and molecular medicine research, with an emphasis on epilepsy surgery, awake craniotomies, and brain mapping. She is currently the Chief of Neurosurgery and Medical Director at NorthBay Center and has been involved in the surgical treatment of patients as well as in healthcare management and leading certain centers such as the Center for Neuroscience and NorthBay Spine Center. Dr. Zusman will be speaking on her experiences in neurosurgery and the various routes you can take as a physician.

**Dr. Edie Zusman MD,
MBA, FACS, FAANS**
